Changes in the Organizational Structure of BBVA Colombia

With the purpose of continuing to drive the Bank's transformation through the use of artificial intelligence, the Board of Directors of BBVA Colombia unanimously approved changes to its organizational structure, through the creation of the AI Transformation Executive Vice Presidency reporting directly to the Executive Presidency.

It likewise resolved to appoint Oscar Muñiz González as Executive Vice President of AI Transformation, effective October 9.

Oscar es Licenciado en Matemáticas de la Universidad de Granada - España y MBA de *IE Business School*. Cuenta con más de 15 años de experiencia; se vinculó a BBVA en 2011 en el área de *Policies and Procedures - Regulatory Projects & Communication*, en 2018 pasó a ser el *Head of Business Process Engineering Client Solutions*. En 2024 se incorporó a BBVA Colombia para ocupar el cargo de *Head of Financial Crime Prevention*.

Oscar holds a Degree in Mathematics from Universidad de Granada (Spain) and an MBA from *IE Business School.* He brings over 15 years of experience; he joined BBVA in 2011 in the *Policies and Procedures – Regulatory Projects & Communication* department, and in 2018 became *Head of Business Process Engineering – Client Solutions*. In 2024, he joined BBVA Colombia to serve as *Head of Financial Crime Prevention.*
