

FORM OF DEVELOPMENT IMPACT AND PORTAFOLIO REPORT

4,338.36 TRM 14/04/2025

Eligible Project Sub-Category	Project description	Description of Development Impact indicator (BSA Schedule 5)	Development Impact indicator (BSA Schedule 5)	Cuantitative Impact indicator (BBVA Framework)	Description of Cuantitative Impact indicator (BBVA Framework)
(All categories) Total of eligible projects financed with proceeds from the blue bond	Not applicable	Number of outstanding loans provided	14	It does not apply.	It does not apply.
		Volume of outstanding loans provided	13178355,72		
		Number of financial institutions in Colombia issuing blue labeled debt (bonds and loans)	It does not apply.		
Ocean-friendly Chemicals and Plastic-related Sectors	Includes projects relating to [investments on research, design, development, or implementation of measures to manage, reduce, recycle, or treat plastic, pollution, or chemical waste in coastal and river basin areas, including: (i) infrastructure that prevents runoff of agrochemicals and industrial chemicals into areas connected to rivers or coastal water basins; (ii) replacement of phosphate-based or nitrogen-based synthetic fertilizers with alternative sustainable and biodegradable fertilizers and supplements in areas connected to rivers or coastal water basins; (iii) use of recycled plastics for manufacturing in a circular economy approach; (iv) plastic collection and recycling facilities and reusing or repurposing of plastics in areas connected to rivers or coastal water basins; (v) urban drainage systems that prevent plastics, chemicals, or pollutants runoff in areas connected to rivers or coastal water basins; and (vi) flood mitigation systems that prevent plastics, chemicals, solid wastes, or pollutants runoff in areas connected to rivers or coastal water basins.] Manage, reduce, recycle, and treat plastic pollution, or substantially reduce chemical waste in coastal and river basin areas.	Number of outstanding loans provided	8	<50%	The activity converts at least 50%, in terms of weight, of the non-hazardous processed waste collected separately into secondary raw materials suitable for the substitution of virgin materials in the production processes.
		Volume of outstanding loans provided	8214838,53		
Water supply and Treatment	Includes project relating to [investments in research, design, development or implementation of water efficiency, clean water supply, and water treatment solutions including: (i) new drinking water treatment, storage, and sustainable supply infrastructure that documents at least 20% water savings per unit of service compared to a documented baseline; (ii) rehabilitation of existing water infrastructure that documents at least 20% water savings per unit of service compared to a documented baseline; (iii) sustainable desalination plants that help protect groundwater depletion and wetlands and avoid hypersaline pollution of the environment (e.g., ISO standard 23446); (iv) water efficiency technologies and equipment or water management activities that reduce water footprint, including via a documented reduction in water consumption in land-based aquaculture, agriculture and irrigation, and residential, commercial, and industrial uses; and (v) wastewater treatment plants, including industrial, agri-business, commercial, residential, or city level, in areas connected to rivers or coastal water basins, as well as biogas and heat exchange systems at wastewater treatment plants to increase their efficiency and effectiveness.]	Number of outstanding loans provided	6	Cualitative and Cuantitative Impact indicator	Request for m3 of treated water, compliance with applicable legal regulations for water quality. Total m3 per year: 4.511.321,4
		Volume of outstanding loans provided	4963517,19		
Fisheries & Aquaculture	Fisheries, aquaculture, and seafood value chain certified under Marine Stewardship Council or Aquaculture Stewardship Council	Number of outstanding loans provided	It does not apply.	It does not apply.	It does not apply.
		Volume of outstanding loans provided	It does not apply.		
Offshore Renewable Energy	It does not apply.	Number of outstanding loans provided	It does not apply.	It does not apply.	It does not apply.
		Volume of outstanding loans provided	It does not apply.
